

Responsible AI Roadmap: Info about LinkedIn Certificates

Thanks for considering attending our series of minicourses. We strongly believe that each good-faith attendee of any one of our minicourses is well suited for all nine of our courses. The whole program only requires 4.5 hours of remote attendance in convenient thirty minute slots. Whether you're a beginner or an expert, skeptical or all-in, you'll leave ready to become a beacon of AI ethics in your workplace. What better way to demonstrate this than with a badge or certificate of completion?

Core Practitioner

- **Awarded after completing three distinct workshops live**
- Completion of reflection surveys
- Reflects literacy in one of each of our learning loci: Sandbox, Lab, and Bridge
- Badge or certificate titled: *"Responsible AI Foundations"*

Strategic Leader

- **Awarded after completing all nine workshops live**
- Completion of reflection surveys
- Signifies comprehensive understanding and engagement in all of our learning loci: Sandbox, Lab, and Bridge
- Badge or certificate titled: *"Responsible AI Strategy & Leadership Track"*

Participants will receive a certificate of completion that can be manually added to LinkedIn under "Licenses & Certifications."

If you're attending through your organization, we can issue your certificate in your company's name or to individual learners.
