

# AlignIQ: Empowering Organizations Through AI Literacy

Transform your organization's AI capabilities through customized training and implementation – delivering measurable results in an era of rapid change.

## Our mission

---

We develop forward-thinking leaders and teams by **teaching the practical skills and ethical approaches needed to thrive in an AI-powered world**. Our programs help organizations navigate continuous change and enrich future generations.

---

## Our approach

---

We combine deep AI expertise with proven educational methods to:

- Deliver targeted workshops that simplify AI concepts into actionable knowledge for **all team levels**.
- Assess AI literacy to identify gaps and **growth opportunities** across your organization.
- **Equip power users** to train others and sustain internal AI education.
- Plan AI **project implementation strategies** with your business goals and objectives.
- Promote **ethical and continuous AI learning** within your organizational culture.

## Why AlignIQ?

---

Our unique blend of expertise ensures **lasting impact**:

- Data-driven approach with **measurable improvements** in team AI capabilities
  - **Advanced degrees** in statistics, communications, and curriculum development
  - 30+ years of combined **experience** in training design and delivery
  - Proven success with diverse audiences, from **technical experts to business teams**
  - Focus on sustainable, ethical AI adoption to **drive business value**
- 

Caroline Stauss and Dan Garbat, AlignIQ Co-founders
